

Our Commitments Moving Forward:

1. We are committed to answering every single question that any student, parent, staff member, or member of the community has.
2. We are committed to transparency, and will be establishing a place on both school division websites where anyone can visit to get information about the progress of the project. Tonight's presentation will be there, together with all of the information generated by you this evening.
3. We are committed to continuing to be advocates for children and families on South Hill, and to make this the best possible place for children to attend school anywhere in Saskatchewan.
4. We are committed to collaborating widely when we can, and to giving timely and accurate information when we make decisions as Boards of Education without collaboration.
5. We are committed to maintaining focus on our core work – teaching and learning, children and families.
