The Algoma District School Board cares...

The Algoma District School Board cares, first and foremost, about the well-being of our students and families during this time. We are committed to supporting and developing our confident learners, as we collectively commit to staying home to protect ourselves, each other and our communities, as caring citizens.

Airlines always tell passengers that in an emergency, they are to put the oxygen mask on themselves before helping others – this is because we can never take care of others if we don’t care take of ourselves, first. The COVID-19 pandemic emergency has presented us all with challenges and additional strains and stresses. Please know that we understand the challenges of learning at home, working at home or in an essential service, sharing technology and trying to provide structure to the day. By keeping well-being at the forefront of our approach to learning, we are trying to be respectful of the need to keep you and your family well, as we provide meaningful learning opportunities that can be integrated into your family’s schedule. Parents, please do not allow academics to be an added stress – we are here to support you and your child, but know that wellness must be the first priority.

Well-Being

Tips for Making a Schedule at Home

Select the format for your schedule (list, calendar, checklist, etc.)

Decide what timelines work for your family

Try to incorporate academic, movement, emotional health and social activities throughout the day

After dinner, plan a family social activity

Emotional Health Activity

Students who engage in physical activity and/or breathing exercises during the school day are able to focus, and maintain attention throughout the day, as these tasks stimulate executive functions, and allow students to regulate emotions experienced in the classroom (Diamond & Lee, 2011).

Movement Activity

Hot Spot Challenge - Create a challenge for each hot spot such as jumping jacks, push-ups, balance on one leg, frog jumps, squats, step up on a stool, sit ups, tossing a ball! Do the activity at each station for 30 seconds before switching to the next station. To add variety and difficulty increase the time for each station, switch the order of stations and create your own!

Social Activity

Create a Family Journal – each family member contributes to the journal on a daily basis. Our personal experiences/thoughts/feelings about the current pandemic and its far reaching ramifications will make interesting reading in a few years.
