Learning Goal: I am learning to show understanding of text by retelling details in order.

Read the story, "Marty Needs Help."

Find these words in the story and draw a line to show the picture that explains the word:
- Plant
- Soil
- Water
- Sunlight
- Grow

If you know the word in your home language, you could write it as well.

Talk about what Marty did to help his plants to grow in order from first to last.

Write down the steps that Marty took to make his plants grow using a timeline.

Explain the steps to do something that interests you (cooking a favourite food, playing a game).
