**FESL:**

Last year the school had 2 initiatives:

- 1) Improving attendance
- 2) Adopting a growth mindset

Glacier View will continue the growth mindset initiative this year while also considering creating a second goal that would aim at tracking the amount of work completed by students.

Changes in marijuana legislation is coming through October 17. Glacier View has updated its code of conduct to reflect this upcoming change.

The new kitchen is now complete but a teacher is still needed. Glacier View is still working on being able to offer electives on Wednesdays.

**Wellness centre update:**

Lindsey Skelding, a sexual health nurse, is offering her services in the centre again this year. It is likely that JHS will also be offering their services again.

The centre has lost the services of MCFD Child and Youth Mental Health counsellors and the physician.

Kelsey and Lindsay Skelding will be running some sexual health workshops for the students.
