

Administrative Procedure 6036 MR2

Transportation of Students to Child Care

1. The Board of Education will provide transportation for students between their school and their place of child care provided that:
 - (a) the student travels to their place of child care on a regular basis; and
 - (b) there is an available seat on the bus they wish to ride.

2. Priority will be given in the following order:
 - (a) to students travelling to a place of child care that is on the same bus route the student would normally take to their home;
 - (b) to students who are normally bused to school in the morning;
 - (c) to other students.

3. Parents may request such transportation for their children by submitting to the school a completed Form 630, “Request for Transportation to Child Care” (attached). Requests are valid for the school year in which they are submitted, and must be renewed at the beginning of each school year.

4. The school principal, in consultation with the school bus contractor, will consider each request on the basis of compliance with the above criteria and notify the parent/guardian making the request whether or not it has been approved. All requests will be retained by the school for the duration of the school year.
