Learning Goal: I am learning how to use familiar words to express meaning in English.

- Read aloud the English words with the pictures.
- Say the word in your home language as well.
- If you are able to write in your home language, write the word as well.
- Cover the words and try to say the name of the item.
- Rewrite each word and repeat it out loud as you write.
- Draw a picture of yourself wearing some of the items and then label the picture.
- Talk about what you drew by using this sentence starter: “I have __________.”
