

CATCHMENT CONSULTATION Discussion Questions

Date: Monday, November 4, 2019
Time: 6:30 - 9 p.m.
Venue: Royston Elementary School

The following questions were presented to participants during the consultation to guide discussion.

1. You have been presented with a lot of information and data tonight. What questions or additional information do you need?
2. You have heard that Cumberland is one of our schools that is over capacity. What are some possible ideas you have to create space **at Royston**?
3. If the final decision results in a change (could be grade structure or boundaries for example) how do you think we should go about doing this? If it is a boundary change should we move everyone affected by the change right away or should we move them overtime?
4. Tonight, you were presented with data that shows that Highland is under capacity, Isfeld is at capacity and Vanier will soon be over capacity. How do you suggest we balance the enrolment at our secondary schools?
5. What other ideas or suggestions do you have that will assist us in balancing our enrolments while at the same time maintaining out neighbourhood schools?
