

# Construction Trade Sampler

## District Program

### Course description:

Construction Trade Sampler is a cohort group immersion into the many careers related to the Construction Industry. Students will explore interested career areas around the following trades: **Carpentry, Electrical, Plumbing, Roofing, Drywall, Flooring, Siding, Concrete** and **Painting**. The course is mainly “hands on”

by building skills, knowledge and the right attitude that employers are looking for. There will be a focus on ITA essential skills, field trips to businesses that employ trades people, project building in the shop, and practical experiences with North Island College Trades instructors. Drafting and math will be interspersed with day to day learning. This course is open to all grade 11 and 12 students in the Comox valley. Grade 10 students may be accepted.
