Melissa is Room 13s Star of the Month for January. Melissa has worked extremely hard this last month on our two main goals in room 13 - she has worked through her frustrations with understanding angles in triangles as well as becoming masterful with revision. Melissa can also be counted on to keep her part of the classroom tidy and does not hesitate to help clean up messes in room 13. Melissa is a good friend to all and can work with any other student with whom I pair her. Congrats, Melissa!

Mr. Rogers
