- * **Try-A-Trade** is a one full day opportunity for grade 10,11 and 12 Vanier girls/boys to try out different trades to see if they have an interest in learning the skills for hobbies, life skills or potentially a career in the trade area. Students will attend one full day of trades training and will need to check in with their regular classroom teachers to obtain the work they missed on that regular school day. The students can learn basic skills in electrical, plumbing, carpentry (framing), drywalling, roofing, cooking, automotive. The girls/boys are welcome to attend with another friend/classmate from Vanier if they feel more comfortable attending with another student. Each student needs to get a parent signed permission form completed so they have permission to leave the Vanier school property for the day. We will need the forms back between Sept. 10 and Sept. 25 as we will start several Try A Trade Days in the first week of October. It is a fun filled day at Sandwick Technical School on Rennison Road (near Vanier Secondary School). We provide the training, the tools and all the supplies. We also provide a free lunch to the students. Please drop into the Work Experience/Careers Office this week to pick up a Permission form that will need to be signed by a parent.
