

EVALUATION CRITERIA – TEACHER LIBRARIANS

PREAMBLE

A teacher/librarian in the District is evaluated on the basis of the following criteria:

1. management;
2. instruction and curriculum development;
3. selection of learning resources;
4. program advocacy;
5. professional growth and currency.

However, implementation of an effective school library program is dependent upon a number of factors, including shared ownership and commitment among all members of the school community, the demands of individual learning programs, deployment of library staff, and organization of the school.

Factors affecting a teacher/librarian's ability to implement the school library program include:

- Library Personnel: - Support Staff
- Time: - Amount of assigned teacher/librarian time
 - Other responsibilities
 - Size of school
 - Amount of library assistant time
- Budget: - Resources to respond to the unique needs, abilities, and interests of individual learners
 - Resources to provide for the learning programs in the school
- Facility: - Accommodation and furniture for a variety of groupings of learners
- Support: - Understanding of and support for the teacher/librarian and the school library program

At the beginning of the evaluative process, administrators and teacher/librarians are to discuss these factors and how they impact the teacher/librarian and, most significantly, who—the teacher/librarian or the Principal – has control over the factors. Where a teacher/librarian's assignment is less than full time, there is the expectation that the guidelines or indicators addressed under each criteria is to be reduced and/or modified to reflect the assignment. This must be discussed between the administrator and teacher/librarian prior to the evaluation cycle.
